To Whom It May Concern,

I am pleased to write this letter of recommendation for Sankalp Wadhwa, partner with CWC India | Evaluex Management Services Pvt. Ltd., who provided accounting services to CoolFrames LLC during a crucial phase in 2024.

Sankalp officially joined us in July 2024, stepping into a situation with no existing systems or accessible records. Despite these challenges, he quickly established control and delivered the January 2024 Profit & Loss statement within a few weeks. Over the following months, he worked diligently to bring our accounting up to date through the end of the year.

His contributions included timely preparation of both the Profit & Loss and Balance Sheet reports, as well as full reconciliation of our bank accounts, credit cards, and several e-commerce and payment portals. This was no small feat given the scale of operations--CoolFrames processed approximately 60,000 transactions in 2024 alone.

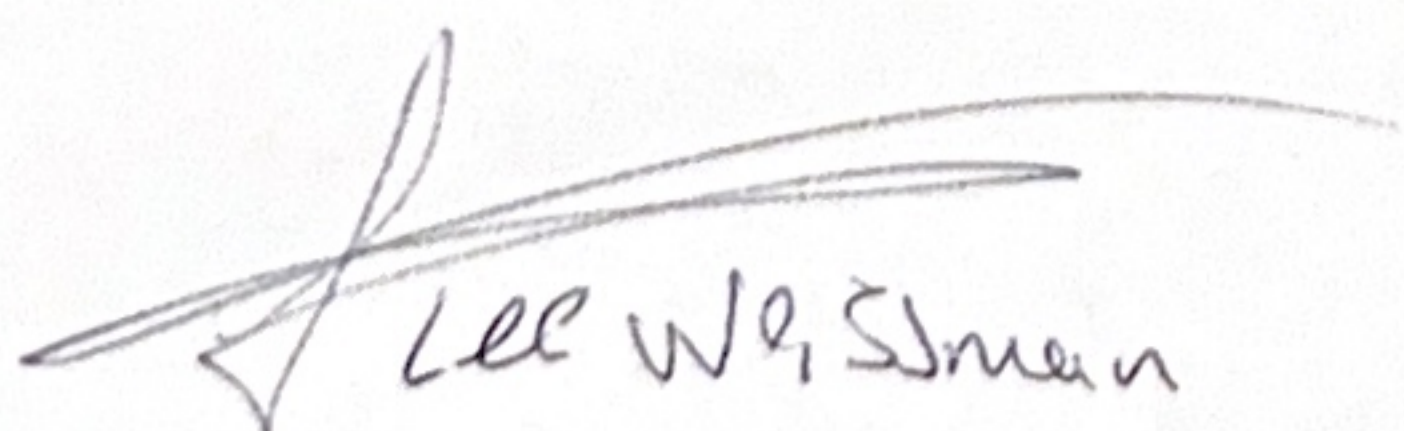

Sankalp's ability to manage high-volume, complex financial data with minimal initial guidance demonstrated both his technical expertise and strong ownership. He resolved initial data gaps and discrepancies as they arose and ensured accurate financial reporting, even under tight timelines.

I would gladly recommend CWC India | Evaluex Management Services Pvt. Ltd. to any e-commerce business looking for reliable, high-quality accounting support.

Sincerely,

Lee Weissman

Founder, CoolFrames LLC
